WELCOME

Welcome to Forum Suryoyo

Schlomo w Hubo,

Dear guests, dear friends,

Today marks the beginning of a new chapter.

With the inauguration of Forum Suryoyo, we are creating a space where people who want to contribute to the preservation, development, and future of our language, culture, and identity can come together.

We believe our community holds enormous potential. That potential lies in its people — in their knowledge, experience, and ideas. We want to provide a space where people can meet, exchange perspectives, build connections, and turn shared ideas into action.

Forum Suryoyo is conceived as a "round table" — an independent platform for dialogue, exchange, and development.

Our roots run deep.

Our future is ours to shape.

Today, we invite you to shape that future together.

A warm welcome to Forum Suryoyo.

W H Y

Why Forum Suryoyo?

We are the heirs to an ancient civilization — and, at the same time, the authors of a future yet to be written.

Our language, culture, and identity are rooted in a long history. But keeping our heritage alive does not mean remaining anchored in the past.

It means connecting what has shaped us with the challenges and opportunities of our time.

In our community, there are people with diverse knowledge, wide-ranging experience, and exceptional talents. What is often missing is a shared space where these strengths can come together.

Forum Suryoyo aims to create exactly that space.

A place to come together.

A place for new ideas.

A place for open and respectful dialogue.

PRINCIPLES

The Five Guiding Principles of Forum Suryoyo

I Dialogue and Unity

We foster open and respectful dialogue that bridges differences and strengthens a sense of unity across the global Suryoyo community.

II Living Heritage

Our language, culture, and history form a living heritage. We strive to preserve, renew, and express them in ways that remain meaningful and relevant to the world we live in.

III Collaboration and Exchange

Forum Suryoyo connects Suryoyo professionals, thinkers, creators, and others committed to our community — encouraging the exchange of ideas, the discovery of common interests, and cooperation on initiatives that benefit our community and strengthen our culture.

IV Independence and Integrity

Forum Suryoyo operates independently of any political, religious, or cultural organization. Our commitment is to intellectual freedom, openness, and the common good.

V Responsibility for the Future

We act with future generations in mind, helping to ensure that the Suryoyo identity remains vibrant, confident, and relevant in the modern world.

GOALS

Three Core Goals of Forum Suryoyo

To serve as an open forum where diverse Suryoyo voices can come together in mutual respect, exchange perspectives, and deepen mutual understanding.
